Public Comment: EPA has placed Merrimack Station's Draft Permit on Public Notice from September 30 to November 30, 2011.

PUBLIC COMMENT (REVISED)

The original public comment period for this proposed permit was from September 30, 2011, to November 30, 2011. EPA, in response to requests for an extension of the public comment period, has extended that period to February 28, 2012. Therefore, all persons, including applicants, who believe any condition of the draft permit is inappropriate, must raise all issues and submit all available arguments and all supporting material for their arguments in full by midnight **February 28, 2012**, to the U.S. EPA, 5 Post Office Square, Boston, Massachusetts 02109-3912. In reaching a final decision on the draft permit, the Regional Administrator will respond to all significant comments and make these responses available to the public at EPA's Boston office.

Subject: Info. for today's briefing

John –

What date did Merrimack go on public notice, what date was scheduled to end, and what date did we extend the comment period to? I would like to include this info. as introduction material for today's briefing.

Thanks.
